DETAILED ACTION

Lack of Unity

1. Claims 1-13 are pending in the application.
2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-2 drawn to an azeotropic composition consisting of 1,1,1,3,3-pentafluoropropane and 1,1,1-trifluoro-3-chloro-2-propene.

Group II, claims 3-13, drawn to a process for producing, separating or purifying 1,1,1,3,3-pentafluoropropane or 1,1,1-trifluoro-3-chloro-2-propene.

The inventions listed as Groups I and Group II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The invention of Group I is drawn to an azeotropic composition which consist of 1,1,1,3,3-pentafluoropropane and 1,1,1-trifluoro-3-chloro-2-propene and the invention of Group II is drawn to a process for producing, separating or purifying 1,1,1,3,3-pentafluoropropane or 1,1,1-trifluoro-3-chloro-2-propene. There is no special technical feature that unites Group I with Group II because the invention of Group I does not require the particulars of Group II in that an azeotropic composition consisting of 1,1,1,3,3-pentafluoropropane and 1,1,1-trifluoro-3-chloro-2-propene can be derived from

prior art processes (see WO 96/01797; JP 9183740 A and JP 9241188 A) or by simply mixing, by hand, the two pure compounds together.

A telephone call was made to Andrew D. Meikle on 8/8/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
